

QUICK START GUIDE

AVXSB11UHD / AVXSB11MM / AVXSB11DD

SAFETY
FIRST

FIRST TIME SETUP

Powering Up The System

1. When vehicle power is applied to the system monitors, the monitors will go through a bootup process for approximately 30 to 35 seconds and then go directly to the Main Menu.

Wi-Fi

1. Press the  Setup icon to open the Settings Menu.
2. Toggle the Wi-Fi to “ON”.
3. Press Wi-Fi to show available networks.
4. Select the Wi-Fi network you would like to connect to and use the touchscreen keyboard to enter the password.
5. “Connected” will show if a successful Wi-Fi connection has been established. The system will remember and automatically reconnect to any available Wi-Fi networks saved (maximum of 10).

Bluetooth (Connecting the included Bluetooth Channel A/B Headphones)

1. To pair the Bluetooth headphones, press the Setup icon to open the settings menu.
2. Toggle the Bluetooth to “ON”.
3. Set Bluetooth headphone to “CHANNEL A” or “CHANNEL B” for pairing.
4. Select the Bluetooth device name (Bluetooth headphone) to start the pairing process. “Connected (Audio)” will show if a successful Bluetooth connection has been established. The system will remember and automatically reconnect to any available Bluetooth headphones saved (maximum of 10).

Downloading Apps on the System Monitors

1. Select the “Apps” icon from the main menu.
2. Open the “Play Store” application and sign in with your Google account or signup for a Google account.
3. Browse the Google Play Store and download the applications you wish to the system monitors.

VOXX Link Remote Control

1. Go to the Google Play Store or iTunes Store and download the free VOXX Link application for your Smart Device. **Your Smart Device must be connected to the same Wi-Fi network as the System Monitors for the VOXX Link app to function.**
2. Press the  Setup icon to open the settings menu.
3. Select “VOXX LINK” from the menu on the left. This will enable the feature.
4. Open the application on your mobile device and select the monitor you wish to control (example: SB11 MD1_xxxx). Once selected, the Monitor’s screen will display on your mobile device, allowing full control of the Monitor.

NOTE: This VOXX Link application is designed to allow a remote user (ie. Parent) that does not have direct visibility to each monitor to control each monitor.

Scan the QR Codes below to download the VOXX Link application.

QUICK START GUIDE

11.6" SMART TV SEATBACK IN-VEHICLE ENTERTAINMENT SYSTEM

Congratulations on the purchase of your In-Vehicle Entertainment System!

This Quick Start Guide is a brief tutorial allowing you quick access to enjoying your new System. You will find the system very user friendly and intuitive, but in the event you need further information on how to operate your system, please go to the following QR code to review or download the complete Owner's manual.

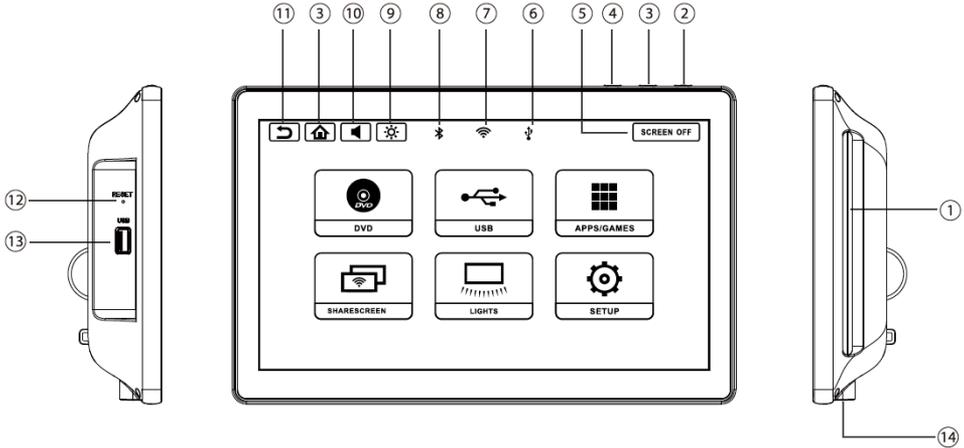

SYSTEM FEATURES

- DVD:** Play your favorite DVDs, CDs and MP3 discs.
- HDMI Input:** Connect HDMI Devices such as Smart Phones or Game Consoles.
- USB Input:** Connect a USB storage device for Media Playback of Videos, Music, Photos, along with charging support for USB based devices.
- Share Screen:** Share content wirelessly between System Monitors in Hi-Definition.
- Apps/Games:** Preloaded with Google Chrome, YouTube and the Google Play Store, download your favorite apps and stream in your favorite content. Just connect the monitors to a Wi-Fi Hotspot and you're ready for the ultimate travel experience. The monitors are also equipped with 16GB of internal memory allowing you to download content for offline viewing from apps that support offline content downloads. You can also set up and access a compatible Gaming System through a Wi-Fi connection. Leave the console at home and just bring your controllers with you on your next road trip.
- Lights:** Ambient indirect Mood Lighting to add flair to the backseat entertainment experience with selectable color and brightness control.

- Wi-Fi:** Connect to an In-Vehicle Wi-Fi Hotspot if available or a portable Wi-Fi Hotspot (ie. Smart Phone) for full access to all this system has to offer.
- VOXX Link:** Control the system monitors from anywhere in the vehicle. By downloading the VOXX Link* app, each monitor can be monitored and controlled without having to see the screens. Great for parents with kids in car seats!
- *VOXX Link app required-Available on the Google Play Store and Apple App Store.
- Bluetooth:** Transmit audio from the monitors to Bluetooth Headphones or the vehicles audio system if Bluetooth compatible.
- Language:** Select the system language: English, Spanish, French, Chinese, or Japanese.
- Auto Setting:** Allows automatic content playback from a USB storage device if “Automatic Media Playback” is turned ON.
- Information:** System Info, Time Zone Setup, Device Name Setup and Update Tools. Allows System Factory Reset.
